Statement of Expectations  
Keyu Jiang, Assistant Professor  
Department of Information Networking and Telecommunications  

Academic Year 2008-2009

Instruction 60%: Jiang will teach instruct four in-load classes during both the fall and spring semesters. He will be active in Information Assurance curriculum development and will create a new course in “Management of Information Security.” This course will be offered for the first time during the Spring 2009 semester. He will advise students and will take responsibility for advising Information Assurance graduate students. The INT Department recognizes that instruction is the greatest part of its faculty workload and that its faculty members were hired largely based upon their instructional capabilities and qualifications. It recognizes that quality instruction is the department’s first priority.

Jiang’s fall courses will include:
INT 430 Leadership in INT  
INT 872 Readings in Information Networking and Telecommunications/Information Assurance  
INT 684 Fundamentals of Information Security  
INT 685 Foundations of Network Security

Jiang’s spring courses will include:
INT 678 Seminar in INT/Management of Information Security  
INT 686 Network Security Firewalls  
INT 891 Capstone Seminar in Information Assurance  
INT 678 Seminar in INT/Unix Administration

Scholarship 20%: Jiang will seek to meet the guidelines established in the departmental definition of scholarship by publishing articles in professional or academic journals, attending professional or academic conferences, becoming certified through standardized industry certification examinations, presenting at conferences or meetings, and other scholarly activities as defined. He will show progress toward departmental scholarship goals on a yearly basis.

Service 20%: Jiang will participate in the Department of Information Networking and Telecommunications in a manner that encourages innovation, collaboration, and a positive and supportive environment for faculty, staff, and students of the department. Jiang will assist the Chair of the Department and other INT faculty in student recruitment and fundraising. Jiang will work to enhance the enrollment in the department and the University. He will serve as the faculty lead for the Information Assurance Program and will work closely with the Chair of the Department in pursuing a Center of Academic Excellence in Information assurance.
