Statement of Expectations
Erich Spengler, Adjunct Faculty Member
Department of Information Networking and Telecommunications

Academic Year 2008-2009

Erich Spengler will develop a formal Information Assurance course entitled Risk Management and Disaster Recovery. He will work with Information Networking and Telecommunications Department Chair, Mark Bannister to submit this course for formal approval through the Faculty Senate and Graduate Council. Spengler will develop the course for distance learning delivery.

The new course will be offered for the first time in the Fall Semester of 2009. It will be part of the Security Management Concentration in the Masters of Liberal Studies in Information Assurance and of the Information Assurance Emphasis in the Masters of Business Administration.
