Instruction 80%: Walters will teach four in-load courses during the fall semester and will be on sabbatical and will not teach during the spring semester. She will provide course materials and support to the faculty filling in for her. She will advise students and will take some responsibility for advising graduate students in the MLS and who are earning concentrations in INT. She will offer training workshops for high school faculty if the opportunity exists. The INT Department recognizes that instruction is the greatest part of its faculty workload and that its faculty members were hired largely based upon their instructional capabilities and qualifications. It recognizes that quality instruction is the department's first priority.

Walters fall courses will include:
INT 300 Foundations of Information Networking
INT 651 Advanced Web Development
INT 654 Intro to Web-Enabled Databases: Oracle

Scholarship 10%: Walters will seek to meet the guidelines established in the departmental definition of scholarship by publishing articles in professional or academic journals, attending professional or academic conferences, becoming certified through standardized industry certification examinations, presenting at conferences or meetings, and other scholarly activities as defined. She will submit requests for funds (grants) through the campus action plan process to enhance the INT Department’s mission. She will seek to achieve funds from other sources by working individually or with other INT faculty or staff for the further improvement of the INT Department. She will show progress toward departmental scholarship goals on a yearly basis.

Service 10%: Walters will participate in the Department of Information Networking and Telecommunications in a manner that encourages innovation, collaboration, and a positive and supportive environment for faculty, staff, and students of the department. Walters will assist the Chair of the department and other INT faculty in student recruitment and fundraising. Walters will take a leading role in the continued development of the Web Development Concentration. Walters will work to enhance the enrollment in the department and the University.

Signed:

Angela Walters
Assistant Professor
Department of Information Networking and Telecommunications
Date: 12/17/08

Chris Crawford
Dean
College of Business and Leadership
